Upper Peninsula Health Plan (UPHP) MI Health Link (Medicare-Medicaid Plan) | 2024 *List of Covered Drugs* (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter drugs are covered by Upper Peninsula Health Plan (UPHP) MI Health Link. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by UPHP MI Health Link. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

No changes made since 10/01/2024.

Important Message About What You Pay for Vaccines - Some vaccines are considered medical benefits. Other vaccines are considered Part D drugs. Our plan covers most Part D vaccines at no cost to you.

A. Disclaimers

This is a list of drugs that members can get in UPHP MI Health Link.

- ❖ Upper Peninsula Health Plan (UPHP) MI Health Link (Medicare-Medicaid Plan) is a health plan that contracts with both Medicare and Michigan Medicaid to provide benefits of both programs to enrollees.
- ❖ You can also get this document for free in other formats, such as large print, braille, or audio. Call 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free.
- ❖ You can make a standing request to get this document, now and in the future, in a language other than English or in an alternate format.
- ❖ The *List of Covered Drugs* and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.
- ❖ Benefits may change on January 1 of each year. You can always check UPHP MI Health Link's up-to-date *List of Covered Drugs* online at www.uphp.com/medicare/uphp-mi-health-link.
- ❖ Limitations, restrictions, and patient pay amounts may apply. This means that you may have to pay for some services and that you need to follow certain rules to have UPHP MI Health Link pay for your services. For more information, call UPHP MI Health Link Customer Service or read the UPHP MI Health Link *Member Handbook*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts on page 12 are the drugs covered by UPHP MI Health Link. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- UPHP MI Health Link will cover all medically necessary drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy, **and**

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

- you fill the prescription at a UPHP MI Health Link network pharmacy.
- UPHP MI Health Link may have additional steps to access certain drugs (refer to question B4 below).

You can also find an up-to-date list of drugs that we cover on our website at www.uphp.com/medicare/uphp-mi-health-link. If you need help, ask your Care Coordinator or call UPHP Customer Service at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time.

B2. Does the Drug List ever change?

Yes, and UPHP MI Health Link must follow Medicare and Michigan Medicaid rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval (PA) for a drug. (PA is permission from UPHP MI Health Link before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check UPHP MI Health Link’s up to date Drug List online at www.uphp.com/medicare/uphp-mi-health-link.
- You can also call UPHP Customer Service to check the current Drug List at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time.

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug, but your cost for the new drug will stay the same or will be lower. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to question B10 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know what to do.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug that is not new to the market **and**
 - Replace a brand name drug currently on the Drug List **or**
 - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead **or**
- Whether to ask for an exception from these changes. To learn more about exceptions, refer to question B10.

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

B4. Are there any restrictions or limits on drug coverage? Or are there any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization (PA) or approval:** For some drugs, you or your doctor or other prescriber must get PA from UPHP MI Health Link before you fill your prescription. If you don't get approval, UPHP MI Health Link may not cover the drug.
- **Quantity limits:** Sometimes UPHP MI Health Link limits the amount of a drug you can get.
- **Step therapy:** Sometimes UPHP MI Health Link requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 12-184. You can also get more information by visiting our website at www.uphp.com/medicare/uphp-mi-health-link. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can also ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table of drugs on page 12 has a column labeled "Necessary actions, restrictions, or limits on use."

B6. What happens if UPHP MI Health Link changes their rules about some drugs (for example, PA or approval, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change PA, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically by the drug's name, **or**
- You can search by medical condition.

To search **alphabetically**, refer to the Index of Covered Drugs section. You can find the index starting on page 185. The section provides an alphabetical list of all the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

To search **by medical condition**, find the section labeled “Drugs Grouped by Medical Condition” on page 12. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

B8. What if the drug I want to take is not on the Drug List?

If you don't find your drug on the Drug List, call UPHP Customer Service at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time and ask about it. If you learn that UPHP MI Health Link will not cover the drug, you can do one of these things:

- Ask UPHP Customer Service for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please refer to questions B10-B12 for more information about exceptions.

B9. What if I am a new UPHP MI Health Link member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of UPHP MI Health Link. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires PA by UPHP MI Health Link, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility, and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new UPHP MI Health Link member.
- This is in addition to the temporary supply during the first 90 days you are a member of UPHP MI Health Link.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask UPHP MI Health Link to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, UPHP MI Health Link may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or PA requirements.

B11. How can I ask for an exception?

To ask for an exception, call UPHP Customer Service. A UPHP Customer Service representative will work with you and your provider to help you ask for an exception. You can also read Chapter 9, of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

After, we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. You, your representative, or your doctor (or other prescriber) can send us the prescriber supporting statement. For fastest service we recommend faxing the statement to 866-391-6730. You can also mail the statement:

Magellan Rx Management
P.O. Box 64806
St. Paul, MN 55164-0811

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

UPHP MI Health Link covers both brand name drugs and generic drugs.

B14. What are OTC drugs?

OTC stands for "over-the-counter." UPHP MI Health Link covers some OTC drugs when they are written as prescriptions by your provider.

You can read the UPHP MI Health Link Drug List to see what OTC drugs are covered.

B15. What is my copay?

As a UPHP MI Health Link member, you have no copays for prescription and OTC drugs as long as you follow UPHP MI Health Link's rules.

B16. What are drug tiers?

Tiers are groups of drugs. Tier 1 and Tier 2 may include OTC drugs.

Drug Tier	Type of Drug	Copay Amount
Tier 1	Generic drugs	(\$0)
Tier 2	Brand drugs	(\$0)

All tiers have (\$0) copay.

C. Overview of the *List of Covered Drugs*

The following list of covered drugs gives you information about the drugs covered by UPHP MI Health Link. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 185. The index alphabetically lists all drugs covered by UPHP MI Health Link.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., JANUVIA), and generic drugs are listed in lower-case italics (e.g., *sitagliptin*).

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.

The information in the necessary actions, restrictions, or limits on use column tells you if UPHP MI Health Link has any rules for covering your drug.

Note: The * next to a drug means the drug is not a “Part D drug.”

- These drugs have different rules for appeals. An appeal is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Michigan Medicaid.
- If you or your prescriber disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call UPHP Customer Service at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. You can also read Chapter 9 in the *Member Handbook* to learn how to appeal a decision.

C1. Drugs Grouped by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, CARDIOVASCULAR AGENTS. That is where you will find drugs that treat heart conditions.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

* = This indicates the drug is not a Medicare Part D drug however is covered under your UPHP MI Health Link plan.

PA = Prior authorization (approval): you must have approval from the plan before you can get this drug. There are also codes that show if a PA is required because the medication may be covered under Medicare Part B, or if a medication is only available for new starts only.

ST = Step therapy: you must try another drug before you can get this one.

QL = Quantity Limit: There is a limit to how much of a medication you can receive.

QLC = This medication is subject to Opioid Safety Edits

If you have questions, please call UPHP MI Health Link at 1-877-349-9324 (TTY: 711), Monday through Friday from 8 a.m. to 9 p.m. Eastern Time. The call is free. **For more information**, visit www.uphp.com/medicare/uphp-mi-health-link.
